April 14, 2025

To the Honorable Court:

This letter formally introduces **The Foundation of Change**, a federally recognized Section 501(c)(3) public charity (EIN: 33-5003265) providing structured, court-compatible online community service programs to individuals across all 50 states.

Our platform was architecturally designed with the judicial system in mind. Every program hour completed is server-logged with immutable timestamps, creating a tamper-proof audit trail that courts and probation departments may independently verify at any time. Our IRS determination letter confirming tax-exempt status is available upon request and may be attached to this letter for the court's records.

Every certified hour submitted to the court enforces the following compliance mechanisms:

- 1. Identity & Court Verification:** At enrollment, each participant creates a verified account with their full legal name and email address, permanently attaching all completion records to the individual.
- 2. Window Blur & Tab Visibility:** Active engagement is mandatory. Our environment actively monitors browser focus, immediately pausing the time-tracker if a participant minimizes the window or alt-tabs to a different tab, coupled with a strict 10-minute AFK timeout.
- 3. Multi-Tab Blocks & Daily Caps:** Our platform utilizes override protocols to prohibit users from opening multiple coursework tabs simultaneously, and enforces an 8-hour maximum daily throttle to eliminate artificial "speed-running".
- 4. Time-Locked & Qualitative Assessments:** Reflection text forms remain physically locked until the individual spends the analytically required reading time for each module. We enforce strict character-count minimums and actively disable clipboard copy/pasting to verify genuine cognitive engagement.

Program Curriculum: Our coursework is rooted in evidence-based Cognitive Behavioral Therapy (CBT) and Restorative Justice principles. Participants complete structured modules across topics including Anger Management, Addiction Awareness, Domestic Violence Prevention, Emotional Intelligence & Mental Health, Personal Accountability, Civic Responsibility, Crime Prevention, Life Skills & Decision Making, and Personal Development & Rehabilitation. Each module requires active reading with mandatory written reflections demonstrating genuine comprehension — not passive screen time.

THE VERIFICATION PORTAL

We operate as an accountability partner to the justice system. Any judge, district attorney, or probation officer may visit thefoundationofchange.org/certificate-verification or scan the QR code to securely pull the raw, server-side Hour Logs - confirming exact localized timestamps and completion records for a specific participant.

We remain at the disposal of the court to provide any necessary programmatic data or audits required to validate a participant's hours.

Jalen Parker
